

# MICROSOFT 365 BUSINESS PREMIUM

Microsoft 365 Business Premium brings together best-in-class Office apps and powerful cloud services with comprehensive security that helps protect your business against advanced cyberthreats.

## SECURITY FOR MICROSOFT 365 BUSINESS PREMIUM

### Customer Benefits:

- Communicate and collaborate effortlessly
- Protect your work data from unauthorized access
- Protect yourself from phishing attacks and ransomware
- Safeguard sensitive data
- Secure work data on personal devices

**AA Networks security for Microsoft 365 is a managed security service helping our customers realize the full benefits and return on Microsoft security investments. Security for Microsoft 365 provides customers the option for a packaged deployment of advanced security features in Office 365 Security, Enterprise Mobility + Security (EMS), Microsoft Business Premium, and Windows 10 to enable proactive threat monitoring, auditing, reporting, and risk management.**

**AA Networks consultants will work with each customer to understand business requirements for security and compliance. Based on the discussions, AA Networks will :**

1. Plan, setup, enhance, and maintain threat detection, threat protection, and threat response capabilities aligned with customer's security investments
2. Consolidate and orchestrate security capabilities for Microsoft 365 environments
3. Pro-actively alert and manage identified security events and support remediation
